Gail Kubeil

Trophies sub-committee, Australian National Show & Shine Euroa

- **What does your role in the committee involve?**
Organising trophies with Kerry Cooper.
- **What car do you own?**
Dmax and a 1978 Daimler.
- **What car do you wish you owned?**
1960 Mustang.
- **What part of this year's Show & Shine are you most looking forward to?**
The glorious line up of cars, motorcycles and tractors. They are beautifully presented and a joy to behold.
- **Why?**
The setting makes this event special when held in the park with the Sevens Creek as a backdrop.
- **What does the Show & Shine mean to Euroa?**
A cheap, enjoyable day out, brings visitors from far and wide which helps put Euroa on the map.

TEST DRIVE A TESLA

TESLA is excited to welcome you at this year's Australian National Show & Shine in Euroa, where you'll have the opportunity to experience Model 3 and Model Y from behind the wheel. Explore the many comfort and convenience features that come standard with every Tesla and learn about charging at home or on the road. The Tesla team will be on-site to answer any questions you may have. Pre-schedule your drive at this link: <https://australiannationalshowandshine.com.au/tesla-experience/>.

Graham Kyle

Gates manager, Australian National Show & Shine Euroa

- **What does your role in the committee involve?**
My role as a gates manager is to find, organise and support volunteers to help on the entry gates for exhibitors and spectators.
- **What car do you own?**
GWM Cannon X Ute – a practical vehicle in my line of work.
- **What car do you wish you owned?**
There is no specific vehicle that I would like to own, but if I could, a 1957 Chevrolet two-door Bel Air.
- **What part of this year's Show & Shine are you most looking forward to?**
As it's my first show, probably all of it.
- **What does the Show & Shine mean to Euroa?**
To me the show means a lot to the local community. It brings in a diverse mix of people, and puts Euroa firmly on the map for great future events.

BACK IN ACTION: Don't miss the return of the Euroa Miniature Railway at this year's Show & Shine.

Donna Carroll
President, Australian National Show & Shine Euroa

Euroa Miniature Railway makes its post-flood debut

By WENDY McDONALD

THE official opening of Euroa Miniature Railway was held on Sunday, October 25 1994 – this was our first public running day.

Councillor and shire president of the day, Esme Stringer, led the formalities.

Our initial track was a dual gauge track (7 ¼ " & 5") built in an oval with a bypass road around the station (known as our Central Loop) – this was added to with the Northern Loop opened in August 1999.

The track as it stands today in 2024 is approximately 600 metres long.

The Euroa Mini-Railway is one of only about 100 around Australia

With our original station building (clubroom and workroom), a round house was then built to enable Loco's to be easily transported from our clubrooms as well as members cars down to the track.

The fenced area enables safe observation by children and adults.

A toilet block and a kiosk were also added over the years.

Together with the beauty of our location comes the inevitable flooding of the Sevens Creek – many times water may spill over the track with little impact however we have experienced flood-

ing through our buildings on three separate occasions.

October 2022 was the biggest flood event we have experienced, and major track damage did occur after this.

The level inside the main clubroom was at least 30cm of water all the way through and this was much higher than past events.

Unfortunately the Show and Shine event of 2022 was the last time we held a public running day, so our club is very excited to be able to run this October 2024, two years after the flood event.

We will be using our original centre track as the Northern Loop

is not quite ready for use as it undergoes repair work.

Rides may be a bit shorter than normal but we encourage everyone to come and support us as we get back to running and using the track.

It is located in Area 5 of the show.

During the 2024 Show and Shine event, the mini railway will be a great feature for those attending the show and will run virtually non-stop, providing rides for kids.

In excess of 700 children rode the rail back in 2022.

While the children are in Area 5, don't miss the tractors, SES, CFA, petting zoo, show bags and of course the Cobb and Co horse and carriage rides.

- **What does your role as president involve?**
I like to think of it as being the "Fat Controller" ... Well, maybe not so fat. My role is to make sure the committee members looking after an area have everything they need to be successful and that I am not getting in the way and asking annoying questions. These are amazingly talented and dedicated volunteers, they know exactly what they're doing and they are doing it fabulously. On top of that it is promoting the event, helping out with media and marketing, and solving problems when they come up – and doing anything at all that anyone asks me to.

- **What car do you own?**
I have a Holden Captiva wagon. Living on a farm up a long and corrugated driveway means I really can't drive anything delicate.

- **What car do you wish you owned?**
I'd absolutely adore a Triumph Spitfire Mk III, though I'd have to garage it somewhere else.

- **What part of this year's Show & Shine are you most looking forward to?**
I'm looking forward to a favourable weather forecast, lots of volunteers, and a smooth run on the day.

- **Why?**
Well, without our awesome volunteers and fine weather, it would be a lot less successful than I know this one is going to be.

- **What does the Show & Shine means to Euroa?**
Given the wonderful community response from so many local businesses as sponsors, and so many local people prepared to give up their time to make sure the show is a success, I'd say it's something everyone is very proud of.

Show and Shine goes electric

By IAN LANGLANDS

THIS year we are having our first electric vehicle display at the 2024 Show and Shine.

Life member, past president Rob Asquith OAM, is always thinking on how to make the event better.

Having started the Euroa Show and Shine back in 2002 and now in his 80s, Rob instigated having an EV display and is always a guiding light and innovator for the event and members.

Shepparton BMW dealer principal Aaron Brain is supporting the event with EV vehicles from BMW, Mini Garage and Renault.

Mr Brain said his dealership is proud to be a supporter of the Australian National Show and Shine Euroa and its electric vehicle display.

Kia EVs will be on show, and the Victorian branch of the Australian Electric Vehicle Association will be on site to answer any questions you may have about electric vehicles.

Kilmore Ford are showing the latest Ford Mach E and Seymour Toyota will have the latest Toyota BZ4X on display.

Liliana Cevallos, regional marketing specialist for Tesla, is bringing the Tesla M3 and MY, which we hope will be available for test drives during the day.

Jeep are bringing their latest EV, which is still to be released.

The Jeep Avenger will be there – a great coup of the show.

President Donna Carroll said we look forward to a great show on the banks of the beautiful Sevens Creek Parklands, so don't miss a great family day.

THE AVENGER: The Jeep Avenger is coming to Euroa. PHOTO: Jeep Australia, Facebook

WHAT A FEELING: The Toyota BZ4X will be on display. PHOTO: Toyota Australia, Facebook

MUSK-SCENTED: The Tesla M3 will be at the show. PHOTO: Tesla Australia

KIAS COMING: Kia electric vehicles will be up for perusal. Pictured is the Kia EV3. PHOTO: Kia Australia, Facebook

Chris Steele
Vendor manager, Australian National Show & Shine Euroa

- **What does your role in the committee involve?**
Procurement and coordination of all show vendors and traders.
- **What car do you own?**
1964 and a 1/2 Ford Mustang.
- **What car do you wish you owned?**
1969 GT Shelby Elanor Mustang.
- **What part of this year's Show & Shine are you most looking forward to?**
A smooth and very successful show day.
- **Why?**
Who wouldn't?
- **What does the Show & Shine mean to Euroa?**
It's a landmark event for Euroa.

Vivienne's Mustang: a small project that grew huge

By VIVIENNE ERICKSON

Vivienne Erickson was the 2023 winner of the inaugural "Terry Steele Perpetual Trophy for Mustangs".

MY Late partner David Heritage and I already had an AC 427 cobra replica, but I wanted a car with a roof and a boot and something a few girls could cruise around in.

That began the journey of what car and then once that was decided, how to get a 67 fastback, as not so easy to find.

Dave wanted a project (I thought a small one) so he hunted the USA for one and eventually found this one, still registered in California with original owners but had not had \$1 spent on it and she was rough – over 80 large safety pins holding up the roof lining, and so on.

The day she arrived, Dave said "Okay we now need to decide if we can leave her left hand," so off we went up the road to see if I could drive her.

Five minutes later I dropped Dave back home and took off in town and came home hours later – I loved her.

So, first decision made: stays left hand drive.

VIV'S RIDE: Vivienne's 1967 Mustang Fastback.

Then Dave started stripping every bolt and so on, and as he hadn't ever done this before he was constantly asking his friend Greg Maskell of Maskells Customs and Classics questions.

Greg ended up saying I will pick her up and she stayed at Maskell's workshop with Dave going there after work every day, every weekend, every holiday including long service leave working on The Stang.

The small project grew into a massive one – I should have known this would happen as both Dave and Greg are perfectionists.

They worked to the brief of it had to be power, reliability and drivability and they sure delivered.

It was completed in late 2010.

WINNER AND SPONSOR: Vivienne Erickson (left), the winner of the award, and Betty Steele the sponsor of the award, were both married to car enthusiasts who loved Mustangs and they still continue their love of cars and car shows.

Chris Pritchard
Secretary, Australian National Show & Shine Euroa

- **What does your role in the committee involve?**
- Basically taking notes from our meetings, turning them into minutes and then distributing them to our members.
- Also booking the venue for meetings and other admin activities as asked.
- **What car do you own?**
- Hyundai ix35.
- **What car do you wish you owned?**
- Shelby Cobra.
- **What part of this year's Show & Shine are you most looking forward to?**
- I'm really just looking forward to the whole event.
- **Why?**
- After nearly being dropped due to not enough people to run the event, it's just great to see it going ahead.
- Due to a great team, with a mix of those with knowledge and experience running the event, alongside people (like me) completely new to such an event.
- **What does the Show & Shine mean to Euroa?**
- It's a massive event for the region, one that brings many visitors along with vital economic benefits to the region.

AUSTRALIAN NATIONAL SHOW AND SHINE

EUROA - SUNDAY OCTOBER 6TH. 2024

OLD SCHOOL:
Cobb and Co Carriages Victoria will be at the Show and Shine.

First method of road transport hits Show & Shine

By **MATHEW JONES**

THE Australian National Show and Shine is bringing the first mode of transport to Euroa, having invited Cobb and Co Carriages Victoria to the show. For the owners of "Cobb and Co Carriages Victoria" Mathew & Sarah Jones, it is an honour to protect and continue the proud Australian image and goodwill associated with its name-sake which should not be forgotten.

being Ben Hall, the grandson of the great infamous bushranger Ben Hall, this takes you back to the yesteryear of the name "Cobb & Co."

It is a name synonymous with quality coach transport in Australia.

The original "Cobb & Co Coaches" venture is still a highly regarded Australian icon, and the romance of coach travel is still used to promote tourism to Australia today – long after the last coach finished its route.

The original founder

Ian Langlands
Vice president, Australian National Show & Shine Euroa

What car do you own?
1968 XT Falcon, 1962 Falcon Ute, 1959 F600 Truck.

Why?
The community of Euroa, Strathbogie Shire and surrounding towns really stepped up this year once hearing that the committee was postponing the show to 2025 due to lack of response to get involved in 2024.

What does your role in the committee involve?
Assistant to our president Donna.

What car do you wish you owned?
Always loved the 1959 Ford Fairlane or 1961 Lincoln Convertible.

The feedback was overwhelming and social media went viral from all over Australia.

As the 2023 president, I try and give her the other new members my experiences on the event. I'm hoping that with the commitment of our all our volunteers, committee and sponsors in 2024, that the show continues to be a bigger and better event in the coming years.

What part of this year's Show & Shine are you most looking forward to?
Just seeing as many cars and bikes, and all things mechanical on the day. Also talking with fellow enthusiasts, sponsors and the public about what they enjoyed best about the show, and how to make it better.

So, I am hoping that all 60 persons that signed up for the Australian National Show and Shine in Euroa in 2024, stay with us in 2025. Our event sponsors have also really stepped up this year and I can only say that without your support, there is NO SHOW.

Colours of the rainbow on show in Euroa

By RAY READ

WHEN the Chordettes, a female quartet, recorded "Mr Sandman (bring me a dream)", their number one hit song in 1954, they would never have dreamed that more than 25 years later, Holden would invent an iconic panel van of the same name.

GMH launched the "Sandman" Panel Van and Ute range with their HQ model, and then followed through the 1970s with their HJ, HX and HZ ranges.

Inevitably, the good old Aussie rhyming slang had soon generated its own nicknames of "Sin Bin" and "Shaggin' Wagon".

And so, when the Australian National Show and Shine Euroa decided on the 1970s theme at the 2019 show, it was not surprising that the panel vans would become the four-wheeled symbol of that era.

Bret and Julie Kirwan of "Majestic Vanners Victoria" came on board with the theme with their 1977 Sandman Van "JUICY" and a matching caravan "JUICY 2".

Bret has also stirred up some interest for anyone with any sort of panel van to join us once again for the 2024 show.

A great turnout by the group was rewarded when they took out the Best Club Display trophy for 2019.

This year, Bret contacted the

Australian National Show and Shine once again, expressing an interest in the Vanners returning.

The committee got pretty excited about that, and we are pleased to announce that they will be on display, once again in area four.

The club has a neat and spectacular trick called "building a rainbow."

Because the Sandman Vans came in a variety of bright and spectacular colours, as was the craze in the seventies, it is possible to park a group of vans together, "colour matched" so that from a side view, they create a rainbow effect.

Bret said: "I have always loved things with wheels, ever since my first Corgi toy that my grandmother bought me while I was still in a pram."

"Funny, as I still have the passion," he said.

"I progressed from pedal cars to billy karts to go karts.

"Then onto my first motor car, and to having more cars over the years, more than I can possibly remember.

"One car that I certainly do remember and one I had the most fun whilst in my 20s was my Holden panel van.

"It meant trips away to the surf and the country with all my mates, with vans giving us lots of freedom and no hotel fees.

CLASSIC COLOURS: Showing off classic Sandman colours in Mt Gambier.

"For a long time, my wife wasn't keen on me getting another van, but finally the day came about 10 years ago.

"Enter 'JUICY' the Valencia Sandman panel van.

"It's been a passion ever since.

"We also purchased an original Sandman HJ ute that fits in well with its Papaya paint."

"We decided to do the match-

ing Caravan 'JUICY 2'.

"It's been fun finding all the matching colors and 70s memorabilia.

"We started doing this before hearing that the Euroa Show and Shine was featuring a 1970s theme.

"After winning the Best Club Display in 2019, we will be excited to see what everyone thinks of our display once again."

VANS LINE-UP: A panel van fan's dream.

PARK MY PANEL VAN: Iconic Holden panel vans.

KIRWANS' CAR: One of the Sandmans from Bret and Julie Kirwan.

Pam Bannister

Car club coordinator, Australian National Show & Shine Euroa

What does your role in the committee involve?

Communicating with the car clubs to encourage participation, and organising all their locations on the day so they all enjoy the experience.

What car do you own?

Mazda MX5.

What car do you wish you owned?

Mercedes Gullwing.

What part of this year's Show & Shine are you most looking forward to?

Seeing the range of old cars that will arrive and discovering the new electric range that will be on show this year.

Why?

Having such a wide variety of motor vehicles in one place is really a viewer's dream, you can reminisce or look to the future all at the same time

What does the Show & Shine mean to Euroa?

I've been a local for quite a few years and have always thought the Show & Shine has been one of the best events for the town, not only bringing in visitors, but for the townsfolk to show everyone how proud they are of their town.
